The Fort Pitt

Whole-home 0.5 micron filtration

The Fort Pitt is a whole-home filter built around a 0.5 micron carbon block cartridge, designed to address lead, cysts and PFOA/PFOS forever chemicals where water enters your home. Bright indicator lights show when the cartridge is good, when to change it soon and when to change it now.

Filter-Life Indicator Lights

IN SHORT

The Fort Pitt is the whole-home cartridge filter in the Three Rivers lineup, rated at 0.5 micron and designed to target lead, cysts and the PFOA/PFOS forever chemicals. Ask us for the manufacturer's certification and performance documentation for the cartridge before you decide; Three Rivers installs it across the Greater Pittsburgh area.

KEY FEATURES

- **Lead:** Designed to capture both dissolved and particulate forms of lead.
- **PFOA/PFOS Chemicals:** The cartridge is designed to reduce both of these forever chemicals.
- **Giardia and Crypto:** Designed to filter out cysts, waterborne parasites that resist chlorine-based disinfectants.
- **Easy to Replace Cartridge:** The unique snap-ring mechanism makes the routine changing of filter cartridges quick and painless.
- **Bright Filter Change Indicators:** Never guess if your filter is doing its job. The system provides clear, easy to understand lights to quickly identify when it's time to replace the cartridge.
