

DRINKING WATER FILTERS

The Fountain

Simple, dependable reverse osmosis

Reverse osmosis is one of the most trusted ways to produce high-quality drinking water. The Fountain is our three-stage system for reducing microscopic contaminants, delivering great water in the simplest way, every day.

Advanced Construction

Multi-Stage Protection

Membrane Filtration

IN SHORT

The Fountain is the three-stage reverse osmosis system in the Three Rivers lineup: simple, dependable drinking water with a storage tank and dispensing faucet included. It is installed under the kitchen sink by a local plumbing professional after a free in-home water test, across the Greater Pittsburgh area.

SPECIFICATIONS

- ◆ **Easy to Maintain** and **Compact Design**.
- ◆ **Carbon Filtration, RO Membrane** and a **Dedicated Faucet**.

KEY FEATURES

- ◆ **Storage Tank:** Maintains an ample amount of treated water ready to go when you need it.
- ◆ **Dispensing Faucet:** Separate faucet included in package, eliminating the need for additional cost.

Is The Fountain right for your water?

Every recommendation starts with a free in-home water test. If your water does not need a system, we tell you that too. Installed by a local plumbing professional under contract with Three Rivers.
