

SCALE INHIBITORS

The Hot Metal

The salt-free answer to scale

Stop the buildup with The Hot Metal, our low-maintenance system that inhibits hard water minerals from sticking to your plumbing and appliances. Specialized media treats water on demand: the easiest way to prevent limescale.

Low Maintenance

Fast-Acting Media

Salt-Free System

IN SHORT

The Hot Metal is the salt-free scale inhibitor in the Three Rivers lineup: specialized media inhibits hard water minerals from sticking to plumbing and appliances, with built-in carbon filtration and virtually no maintenance. It prevents limescale without salt, electricity or a drain, and without removing hardness minerals. Three Rivers installs it across the Greater Pittsburgh area.

SPECIFICATIONS

- **On-Demand Treatment** with **No Salt Needed**.
- **Multi-Purpose:** built-in filtration; **Safety is Standard**.

KEY FEATURES

- **Scale Reduction Media:** Specialized media alters the state of calcium and magnesium hardness minerals so they are far less likely to form scale.
- **High Capacity Carbon:** Effectively reduces the bad taste and odor from harsh chemicals.

Is The Hot Metal right for your water?

Every recommendation starts with a free in-home water test. If your water does not need a system, we tell you that too. Installed by a local plumbing professional under contract with Three Rivers.
