

WATER FILTERS

The Incline

A gatekeeper for city water

Municipal water carries disinfectants that are tough on bacteria to keep you safe, but they are also tough on your nose, skin and hair. The Incline is our advanced whole-home filtration system that stands between you and those chemicals, for water that tastes great at every tap.

Advanced Construction

Whole-Home Protection

Fast-Acting Media

IN SHORT

The Incline is the advanced whole-home filtration system in the Three Rivers lineup, in three sizes: a granular activated carbon gatekeeper between your home and the harsh disinfectant chemicals in municipal water. It is installed across the Greater Pittsburgh area so every tap, shower and appliance gets filtered water.

SPECIFICATIONS

- ◆ **Three Sizes Available**, with **High Capacity GAC** media.
- ◆ **High Efficiency**: advanced technology allows for no additional water usage; **Safety is Standard**.

KEY FEATURES

- ◆ **Granular Activated Carbon (GAC)**: Made from organic materials processed to create extremely high internal surface area to effectively adsorb foul tastes and odors.

Is The Incline right for your water?

Every recommendation starts with a free in-home water test. If your water does not need a system, we tell you that too. Installed by a local plumbing professional under contract with Three Rivers.
