

SCALE INHIBITORS

The Smithfield

All-around, salt-free scale defense

When you want powerful, salt-free scale prevention, The Smithfield is our complete on-demand option. Its blend of media deactivates hardness minerals, improves the smell and taste of water and reduces bacteria growth inside the tank.

Low Maintenance

Bacteria-Control Media

Salt-Free System

IN SHORT

The Smithfield is the complete salt-free scale inhibitor in the Three Rivers lineup: a specialized media blend that deactivates hardness minerals, filters chlorine taste and odor, and adds bacteria-control media to reduce bacteria growth inside the tank. It inhibits scale without removing hardness minerals, which is exactly the job it is sold for. Three Rivers installs it across the Greater Pittsburgh area.

SPECIFICATIONS

- **On-Demand Treatment** with **No Salt Needed**.
- **Multi-Purpose:** chlorine filtration plus scale reduction in one system.
- **Bacteria Blocker:** bacteria-control media that greatly reduces bacteria growth.

KEY FEATURES

- **Scale Reduction Media:** Specialized media alters the state of calcium and magnesium hardness minerals so they are far less likely to form scale.
- **High Capacity Carbon:** Effectively reduces the bad taste and odor from harsh chemicals.
- **Bacteria-Control Media:** Actively reduces bacteria growth inside the tank.

Is The Smithfield right for your water?

Every recommendation starts with a free in-home water test. If your water does not need a system, we tell you that too. Installed by a local plumbing professional under contract with Three Rivers.
